

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-24 are cancelled.

Claim 25 (New) A method for transferring information comprising:

displaying a sequence of graphical images on a display device wherein each graphical image may be defined as an array of addresses such that each pixel of the graphical image may be identified by a corresponding address;

5 recording an address corresponding to part of the information for each graphical image of the sequence of graphical images to form a sequence of addresses;

transferring said sequence of addresses to a processor;

processing each address of said sequence of addresses to generate said corresponding part of said information; and

10 processing said parts of said information to generate said information.

Claim 26. (New) The method of claim 25 wherein said information comprises identification information.

Claim 27. (New) The method of claim 26 wherein said identification information is a PIN.

Claim 28. (New) The method of claim 25 wherein said sequence of graphical images comprise graphical images representing keypads.

Claim 29 (New) The method of claim 28 wherein said graphical images representing keypads include representations of pseudorandom arrangements of keys.

Claim 30. (New) The method of claim 25, wherein said address corresponds to a cursor address.

AMENDMENT AND RESPONSE

Serial No.: 09/874,274

Atty. Dkt. No. ATMD-26,276

Claim 31. (New) The method of claim 30 wherein said cursor address is selected by pressing a button.

Claim 32. (New) The method of claim 25 wherein said address corresponds to a symbol on a graphical image.

Claim 33. (New) The method of claim 32 wherein said part of said information is a symbol.

Claim 34. (New) The method of claim 25 further comprising the step of authenticating a user based on said information.

Claim 35. (New) The method of claim 34 wherein said step of authenticating is performed by a financial institution.

Claim 36 (New): The method of claim 32, wherein the symbols are alpha-numeric characters.

Claim 37 (New): The method of claim 28, wherein the keypad is an alpha-numeric keypad.

Claim 38 (New): The method of claim 28, wherein said keypad is a numeric keypad.
